Databases: MySQL, MongoDB, Mongoose| **Tools:** AJAX, Spring Tool Suite, REST API, AWS Amplify , JSON, PostMan, Socket.io, AWS(EC2), MySQL Workbench, Git, Github, Firebase.

TECHNICAL PROJECTS

E-Commerce Site| *E-commerce site using MongoDB, Express.js, React.js and Node.js*| [Github](#)
Mock E-commerce Site designed after amazon that allows users to buy and sell products.

- Created a back-end database with Express and MongoDB to allow for more flexibility and structure for user and product creation.
- Added PayPal integration for payment option.
- Designed the application with React to allow for a more responsive user experience. Included Material UI for consistency throw all screen sizes.

Workout App| *Workout app using Java and SpringBoot Suite*| [Github](#)
This app was inspired to help those who have a hard time figuring out what workouts to do. Users can create workouts/ like and comment on others, and stay motivated to continue their fitness goals.

- Designed and created a one-to-many relationship as well as many-to-many models using MySQL allowing users to like/comment, view, and create workouts.
- Integrated Multifile to allow the user to upload files(videos/images) when creating workouts.
- Implemented Bootstrap and CSS for a more responsive design, engaging UI components and style.
- Encrypted the user password through the use of Bcrypt and hashing for user security.
-

Personal Portfolio|Portfolio built to showcase projects and give information more about myself| [Github](#)
This website is to help showcase skills and projects.

- Built a multi page React application with incredible animations.
- Used firebase to store and upload new projects to provide a more diverse upload process. Applied google sign-in to authenticate user for upload purposes.
- Provided EmailJS integration to allow for communication between user and admin. Will add Media quality for mobile app view.

PROFESSIONAL EXPERIENCE

Medical Assistant/Scribe| *Eastern Idaho Spine, Sport, and Rehab*| Idaho Falls, ID | 03/2021-05/2022

- Actively listened and typed over 5000 clear and concise notes of health related matters to allow for proper documentation of medical visits.
- Professionally checked medical patients in and took important vital signs for the patient's health and well-being.
- Communicated clearly with peers to allow for the best medical care possible for patients.
- Handled important patient information and managed a database of patient records.

Customer Service Spanish Speaking| *Melaleuca* | Rexburg, Idaho|
2018-04/2019

- Asked valid questions to determine service needs and accurately input information into an electronic system.
- Informed customers about billing procedures, processed payments, and provided payment option setup assistance.
- Evaluated customer account information to assess current issues and determine potential solutions.
